DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 4-8, and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Also, Re claim 1, the limitation “said wireless broadcast of said first electronic work” lines 11 in pages 2 should be changed to “wireless broadcast of said first electronic work”, the limitation “a playback said first electronic work” lines 19 in pages 2 should be changed to “said playback of said first electronic work”, the limitation “a playback of said first electronic work” lines 1 in pages 3 should be changed to “said playback of said first electronic work”, and the limitation “each said separate user preference” lines 12 in pages 3 should be changed to “each separate user preference”. There is insufficient antecedent basis for this limitation in the claim.
